Dear Colleagues,

The International Institute of Peace and Development Studies (IIPDS) Bangkok under Asian Resource Foundation Bangkok is willing to hold a 2-day SASP-SPSSI Small Group Meeting in collaboration with SASP and SPSSI on the 'Significance of Social Psychology and Personality Psychology in Peace Building through Conflict Transformation', as a satellite event to the SASP annual conference to be held in Canberra in 2024.

We are seeking co-organisers for this event.

About IIPDS: IIPDS has been a stand-alone institute on peace building since 2007, running seminars, programs courses etc across Asia on peace studies, development, and human rights, offering training in peace building, reconciliation, conflict transformation, negotiation, human rights, mental health, and social work. It also holds inter-faith forums for dialogue exchange on practical solutions to pressing social issues. Through these efforts IIPDS aims to create generations of peace workers, peace defenders and peace negotiators to prevent conflict and promote sustainable peace in multi-cultural and multi- ethnic Asia and beyond. Each year about 150 youth and professionals from various countries take part in these activities. In 2020 IIPDS along with ARF brought out an e-book on 'Perspectives of Conflict Transformation'.
